

# Ardant™ -5

## NFT® Nitrile Coated Glove

# Product Datasheet

**OUR REF:** Ardant™-5

### PRODUCT DESCRIPTION

Innovative, cut level 5 protection with a Patented **NFT®** coating offering superb grip in dry, wet and oily conditions whilst being extremely soft and comfortable for the wearer.

With **rtc™** Technology the Ardant™ range incorporates a reinforced thumb crotch that has been specially developed to increase protection, longevity and durability.

The **Sanitized®** hygiene function works throughout extended usage to promote freshness, hygiene and odour repellence.

### TYPICAL APPLICATIONS

Handling corrugated sheets, glass panels, plastics injection moulds, sharp edged metal sheets, aerospace and defence.

**AVAILABLE SIZES:** 7/S • 8/M • 9/L • 10/XL

**PACKAGING: Per Pack:** 10 pairs

**Per Box:** 120 pairs

### Technical Details

**Tested in accordance with EN 388, EC type examination carried out by:**

SATRA Quality Assurance Ltd, SATRA Technology Centre, Wyndham Way, Telford Way, Kettering, Northamptonshire, NN16 8SD, United Kingdom (Notified Body No. 0321)

The results are taken from the palm area of the gloves.

▶ **NFT®** is a unique, proprietary technology which provides unrivalled grip with micro capillaries drawing oil and water away from the surface of the glove. Rigorously engineered to give outstanding abrasive resistance and dexterity for precision handling applications.

▶ **This innovative design feature** has been developed with UCI to enhance overall glove service life, by increasing cut and abrasion resistance in a vulnerable area. In-house tests saw this additional flat nitrile coating extend the service life of the glove compared to non reinforced gloves by over 5 Times.

▶ **The Sanitized® hygiene function** brings increased freshness, comfort and protection.

- **Sanitized®:** These gloves incorporate a Biocidal product. The Biocidal treatment protects against a broad spectrum of Bacteria and Fungi. The active Biocidal substance - Zinc Pyrithione - promotes freshness and inhibits odours.
- **Storage:** Gloves should be stored in a cool, dry environment in the original packaging and out of direct sunlight.
- **Maintenance:** Both new and old gloves should be thoroughly inspected before use to ensure no damage is present. Gloves should not be left in a contaminated condition if reuse is intended - if contaminated, gloves should be cleaned as far as possible
